

# Design a poster

**This activity is your chance to get the message about water safety out there. Think about where you could display your poster when you've made it.**

**Time:**

- 30 minutes

**Resources:**

- Pen & paper or iPad / computer

*Individual activity*

Design a poster or infographic that teaches people about water safety and the actions they can take. Think about who your target audience would be: Children? Adults? Schools? Local Authorities? Consider doing some extra research to include some facts.

Remember to share your ideas and tag us on social media.

A large, empty rounded rectangle with a thin black border, intended for the user to design their poster or infographic.
